

We are Agile Optimizers™

We optimize organizations to help them achieve strategic goals faster, with more predictability and lower risk. We use the Snowbird Transformation-Squared Approach™ – we transform the transformation – propelling organizations beyond where initial Agile transformations left them. Snowbird Agility brings scalability, repeatability, and Agile maturity to your entire organization.

CORE COMPETENCIES

- **Agile Transformation.** Increase transparency, identify and improve workflow inefficiencies, resulting in a **happier**, more productive workplace.
- **Agile Optimization.** Foster long-term implementation and sustainable workflows. Our Agile Coaches, Scrum Masters, Release Train Engineers (RTEs), Solution Train Engineers (STEs), and Agile PMO support provides the necessary infrastructure to **sustain and improve** upon your existing Agile implementation.
- **Training & Certification.** Establish **industry-proven practices** through individual and organization-wide training and certification. We provide custom, hands-on workshops as well as SAFe® Certification training.

DIFFERENTIATORS

- Snowbird Agility's Transformation-Squared Approach™ transforms the Agile transformation, taking it to a state of Agile maturity rarely seen elsewhere.
- Our holistic mindset-process-technical solutioning fosters organizational success. We help keep the organization motivated to relentlessly improve.
- Our implementations are successful because we have long-term scalability in mind. We bring Agile maturity to organizations and programs while learning and adapting to the broader landscape and ecosystem.

STRATEGIC QUESTIONS WE HELP YOU ANSWER WITH A “YES!”

- Are you working across programs or business units to deliver consistent reporting to organizational leadership?
- Do you have a fully transparent connection between your vision and all of the work being accomplished throughout your organization?
- Are you confident in your deliverables beyond the next sprint or quarter? Do you have a long-term, data-driven roadmap informed by teams' inputs?

PAST PERFORMANCE SUCCESS STORIES

Centers for Medicare and Medicaid Services: Snowbird Agility quickly identified and addressed pain points in the existing Agile implementation. Our continued involvement streamlined toolsets and practices, aligned expectations throughout the program, and set the stage for cross-departmental collaboration for Agile excellence.

Northrop Grumman: Snowbird Agility facilitated the transformation of an entire sector's process toolkit. This brought the documentation current, and improved readability and usability, which increased its usage by over 1,000%.

Verimatrix: Snowbird Agility implemented a successful long-term enterprise transformation where releases increased predictability by more than three-fold and the culture shifted to one of trust and respect, which resulted in happier, more productive employees.
